

Turning in the Age of Corona

Episode Two

March 21, 2020

New Contributions for Members of Santa Cruz Woodturners

Dan Albridge is roughing out black walnut and Monterey Cypress, plus doing some coring. Note the jug of Tree Saver and the paintbrush at the rear of the table. He's going to have plenty of fodder for beautiful bowls when these dry by the end of the year.

Raf Strudley is doing beautiful things with figured redwood.

Note the delicacy of the rim!

The project below features redwood burl (cored from a larger bowl) with a maple rim, separated by an accent line of turquoise inlay. Wipe on poly and buffed.
