

A close-up photograph of a woodturner's lathe. A large, thick piece of wood is mounted on the lathe and is being turned. The wood has a prominent grain pattern and is being shaped into a rounded form. A tool is being used to work on the end of the piece, creating a smooth, rounded tip. Wood shavings are visible on the lathe bed and the tool. The background shows a workshop with various tools and materials.

Santa Cruz Woodturners

Saturday, May 16, 2020

Remote by Zoom

If You're Having Problems Making the Program Work

- Our modern and thoroughly patient Secretary, Tim Johnson, can coach you over the phone.
